

- Save over 45 kgs
- Reduced maintenance
- Outstanding ride

Trim weight and reduce maintenance with SOFTEK® NXT front mechanical suspension and steer axle system.

Hendrickson's SOFTEK® NXT system combines the STEERTEK NXT axle and monoleaf spring technology with an advanced integrated clamp group design. This complete system saves over 45 kgs compared to a traditional two-leaf spring and I-beam axle system.

The SOFTEK NXT system is designed for heavy-duty truck applications rated from 5.4 to 5.7 metric ton capacities. The advanced design captures characteristics of the traditional mechanical suspension while reducing weight to help increase fuel economy and payload capacity.

To learn more about SOFTEK NXT,
call Hendrickson or visit our global
web sites for additional information.

SOFTEK® NXT Features and Benefits

SOFTEK® NXT — Hendrickson's industry leading lightweight clamp group design with integrated monoleaf spring and fabricated axle saves over 45 kgs.

Warranty

- STEERTEK NXT comes with a standard 10-year, 1.6 million kilometers limited warranty.*Contact Hendrickson for warranty details and limitations.

Monoleaf Spring Technology

- Reduces weight up to 32.7 kgs compared to 2-leaf springs
- Eliminates inter-leaf friction which improves ride and comfort

STEERTEK NXT Axle

- The box-shaped cross section resists horizontal, vertical and twisting forces more effectively than traditional I-beam axles which improves handling
- Continuous beam architecture minimises stress points for added durability

Brake Compatibility

- Compatible with drum or disc brakes
- Accepts both M16 and M20 brake hardware

Lightweight Clamp Group

- Weighs up to 20.9 kg less than I-beam axle and spring clamp group

Advanced Monoleaf Technology

- Utilises proprietary manufacturing techniques to help ensure long service life

Shackle Redundancy

- Replaces the need for a second leaf which reduces weight

Rubber Bushing

- Reduces maintenance and front end noise
- Requires no lubrication

Steering and Tie Rod Arms

- Integrated for increased strength and reduced weight

Two-piece Knuckle Assembly

- Significantly reduces the time required to service the kingpin bushings
- Premium kingpin bushings and seals provide enhanced protection from the elements to improve bushing life

All applications must comply with applicable Hendrickson specifications and be approved by the respective vehicle manufacturer with the vehicle in its original as-built configuration. Contact Hendrickson and the respective vehicle manufacturer for approval of specific applications. The SOFTEK NXT system is integral to and available exclusively with the STEERTEK NXT axle. Contact Hendrickson or vehicle manufacturer for availability.

* 10-year, 1.6 million kilometers limited warranty covers certain structural components only. Warranty coverage applies to the axle beam, steering arm, knuckle assembly and kingpin when used in applications approved by Hendrickson and within the proper guidelines of the product. Warranty does not cover components experiencing normal wear. Contact Hendrickson for full warranty details and limitations.

Actual product performance may vary depending upon vehicle configuration, operation, service and other factors.
