

Medium-duty air suspension for tractor and rigid truck applications, maximises driver comfort and vehicle protection.

Rated up to 10.5 t, PRIMAAX[®] air suspension adjusts to variations in load and road conditions for optimal ride and performance. Unique suspension geometry, parallelogram design with forged support beams and square cross brace, provides a solid connection and forms a rigid torsion and stabiliser system.

This integrated feature delivers greater stability for improved control.

To learn more about PRIMAAX, call Hendrickson or visit our global web sites for additional information.

PRIMAAX® Features and Benefits

Outstanding Ride

- Superior ride and handling provide enhanced driver comfort and protection to vehicle loads and body
- Non-reactive to brake and acceleration torque
- Roll-resistant design simplifies installation and maintenance

More Road Time

- Proven in arduous conditions
- Hendrickson's torsion bar eliminates the need for a costly anti-roll bar
 - ✓ Reduces weight
 - Increased load capacity helps boost end user operating efficiency
 - ✓ Improves packaging

Flexibility

- Suitable for tractor and rigid applications
- Unique suspension geometry
 - ✓ Parallelogram design significantly controls suspension wind up and corresponding frame rise
 - ✓ Driveline angles are maintained throughout axle travel, thereby reducing suspension-induced driveline vibration and extending component life

PRIMAAX Specifications

Installed Weight*	Typically 240 kg
Capacity	Up to 10.5 t

* Installed weight excludes axle, wheel ends and brakes — supplied kit only
